Data and Information

All offense data is obtained from NetRMS records management system as reported and reflects the current date. Information and map are preliminary and subject to change as police reports are submitted. Data is illustrative, not an official crime report, and should not be used for comparative reporting. Offenses may not appear on the map if the address was unable to be geocoded (mapped). Although no personal information is disseminated through crimemapping.com, remember that all subjects are presumed innocent until proven guilty in a court of law.

Offenses Reflected

Offenses mapped reflect all National Incident-Based Reporting System (NIBRS) offenses in an incident. NIBRS offenses represent the number of total offenses in an incident, not just the most serious offense. NIBRS Group A Offenses are twenty-two crime categories made up of 46 offenses considered to be the most serious and may be a crime against person, property or society. Group B Offenses are eleven crime categories that encompass all crimes that are not Group A Offenses and may be a crime against person, property or society. For Additional information on NIBRS, please visit <http://www.fbi.gov/ucr/faqs.htm>

Selectable crime categories are predefined by the Omega Group. NIBRS offenses are then associated with said categories. Although all NIBRS Offense categories reported are captured by the Rockford Police Department, the dissemination of certain specific offenses are not reflected in the Rockford Police Department application of crime mapping. Specific offenses that are potentially sensitive and confidential will not be mapped on Crimemapping.com and are excluded prior to being made available to the public. Unmapped Monthly Crime Index Reports can be found online through the Rockford Police Department at <http://www.rockfordil.gov/government/police/index.cfm?id=1972> for comprehensive illustrative reporting.
