

News Release

AUBURN ST & CUMBERLAND ST Rehabilitation Project

Beginning Tuesday, April 18, 2006, the intersection of Auburn Street and Cumberland Street will be entirely closed due to sanitary sewer work which is part of the Auburn Street Rehabilitation project. The closure will last approximately one week barring any weather delays.

Local traffic will be detoured to Hancock Street during the closure of Cumberland. Local traffic is defined as residents who reside in the neighborhoods immediately adjacent to Auburn Street. The only traffic using Hancock Street during the Cumberland closure should be residents of the Edgewater and Church Hill Grove neighborhoods. The appropriate detour signage will be in place.

There will be signs at N. Main Street and Fulton Ave. indicating that Cumberland Street is closed at Auburn. There will also be signs at the east end of the Auburn Street bridge indicating that Cumberland and Auburn is closed. All through traffic should use the designated detour route for the Auburn Street project which is Whitman Street.

The City of Rockford thanks you for your patience and cooperation during this phase of construction.

If you have questions concerning the project or would like any specific information, please feel free to contact Public Works at (815) 987-5570.
