ARTICLE 1

CITY RIGHTS

1.1 CITY AUTHORITY

Nothing in this Agreement shall be construed as delegating to others the authority vested in the City, a municipal corporation, in the State of Illinois, and its duly elected and appointed officers, or the Rockford Board of Fire and Police Commissioners, or in any way abridging or reducing the authority of the City, said Board, said elected or appointed officials, or infringing upon the responsibility thereof to the people of the City.

Said rights include, but are not limited to, the right to set standards of service, and protection to be offered to the citizens; direct the working forces; prescribe overtime and the policies related thereto; select the managerial and supervisory employees; direct, plan, control, and determine the operations of the Fire Department and the services to be delivered to the citizens; to assign and reassign Employees to tasks within their classification; and outside their classification in accordance with Article 15 of this Agreement; to hire and promote Employees; to demote, suspend, discipline or discharge for just cause; relieve Employees due to lack of work or discharge for just cause; relieve Employees due to lack of work or other legitimate reasons; make and enforce rules and regulations and make changes therein; change methods of operations, equipment, or facilities, including contracting and subcontracting provided, however, that the exercise of any of the above rights shall not conflict with any of the provisions of this Agreement. All of the foregoing is to be in accord with the currently existing applicable State statutes, City ordinances, and local rules and regulations. These management rights are not subject to the grievance procedure, but nothing in the Article shall be deemed to deny the right of any Employee to submit a grievance claiming or charging violation of any subsequent provision thereof.

ARTICLE 2

THE UNION

2.1 RECOGNITION

Pursuant to the election held on March 7, 1972, in which the Union was chosen as the collective bargaining representative by a majority of the uniformed Employees, and in accordance with a conforming Ordinance which amended Chapter 2, Administration, of the Code of Ordinances of the City of Rockford, the City does hereby recognize the Union as the exclusive organized representative for purpose of collective bargaining with respect to wages, hours of work, and other conditions of employment for the following Fire Department Employees (hereinafter referred to as Employees): All uniformed Fire Department personnel, excluding: The Chief, Assistant Chief, Division Chiefs, Training Administrator/Chief, Assistant Division Chiefs, District Chiefs, Fire Equipment/Safety Manager, Uniformed Employees Represented by AFSCME 1058 Telecommunicator (Non-Fire), and clerical personnel of the Fire Department. This Agreement to bargain collectively only with the Union for the Employees does not preclude the right of one or more individual Employees to present grievances, suggestions, or proposals on their own behalf to the Fire Department chief officers. This recognition will continue so long as a majority of the Employees desire to be represented by the Union; their desire not to be so represented shall be expressed by ballot in the same manner as the election resulting in favor of such recognition, and their desire not to be so represented shall not affect the terms of this Agreement.

2.2 UNION MEMBERSHIP

Employees who are members of the Union on the effective date hereof, and other Employees who thereafter voluntarily become members, will not be encouraged by the City to drop their membership, provided that for a period of fifteen (15) days prior to the termination date of this Agreement any Union member may withdraw from the Union without prejudice or penalty by the Union, by sending notice of such withdrawal to the Union with copy to the City.

2.3 PAYROLL DEDUCTION

Pursuant to 50 ILCS 125/2, any employee defined in Article 2.1 may request the City to deduct once each month from his earnings and remit to the Treasurer of the Union dues uniformly levied by the Union by properly executing and submitting to the City's Payroll Officer the "Authorization for Payroll Deduction" form. Said form shall be provided by the Union and approved by the City's Payroll Officer.

The City's Payroll Officer shall honor all "Authorization for Payroll Deduction" forms received by him not later than ten (10) working days

prior to the next deduction date. Deductions shall be made on the second pay date of each month in the amount certified to the City by the Treasurer of the Union.

2.4 REMITTANCE OF DUES

Total deductions collected for each calendar month shall be remitted by the City to the Treasurer of the Union together with a list of Employees for whom the deductions have been made, not later than ten (10) calendar days after the date said deductions were withheld.

2.5 SUSPENSION OF DEDUCTIONS

Deductions shall be withheld and remitted to the Treasurer of the Union unless or until such time as the City's payroll officer receives duly executed written notice of revocation of an Employee's Authorization for Payroll Deduction from the Employee or official notice of any Employee's death, transfer from covered employment, or when there are insufficient funds available in the Employee's earnings after withholding all other legal and required deductions. Information concerning dues not deducted under this Article shall be forwarded to the Union Treasurer by the payroll officer, and this action will discharge the City's only responsibility with regard to such cases. Deductions of violating members shall cease at such time as a strike or work stoppage occurs in violation of Article 14 (No Strike-No Lock Out).

2.6 INDEMNIFICATION

Only items contained in this Article will be deducted, and any amounts deducted improperly by the City because of Union constitutional or by-laws provisions, as well as rebates and death reimbursement, shall be refunded by the Union to the Employee. The Union will indemnify and hold the City harmless against any and all claims, demands, damages, suits or other forms of liability that may arise out of or by reason of action taken or not taken by the City for the purpose of complying with the provisions of this Article, or in reliance upon any list, notice, assignment or authorization furnished to the City by the Union. Any sum paid to the Union in error shall be corrected upon presentation of proper evidence thereof. This Article further indemnifies, holds harmless and does not impose any liability upon any individual Employee.

2.7 UNION BUSINESS

Union officers and board members may conduct Union business and related activities while on duty without loss of pay, provided such activities are carried out in a manner that does not interfere with the performance of assigned duties.

The Union President, Vice-President, Secretary and Treasurer will be allowed time off with pay, not to exceed four (4) hours per individual, one (1) time per month to attend regularly scheduled Union and Executive Board meetings, provided the arrangements are approved at least two (2) calendar days in advance by the Employee's District Chief.

In the event that a contract negotiation session is scheduled before 12:00, negotiating team members that are on duty the previous day shall be relieved of duty at 22:00 the night before such meetings are to take place. A maximum of three (3) people shall be allowed time off with pay at any one time under the provisions of this paragraph.

Under arrangements to be made by the Chief, the City agrees to allow Union members, who are either elected or appointed, time off to attend conventions, seminars, and those meetings made necessary by their election or appointment. Such time off may be taken by rescheduling vacation, holiday or Kelly time. It is also agreed that those members elected or appointed to Union positions will be allowed to have anyone from this Union of equivalent position work for them on a voluntary basis so that they might attend those necessary meetings, subject to the approval of the Chief.

The City agrees that no more than three (3) Union members on duty at any one time shall be allowed time off with pay not to exceed four (4) hours at one time for the purpose of fulfilling their Union duties, which shall be defined as necessary local meetings, dealing with matters that affect negotiations, wages, hours or working conditions. Additional requests not covered by the foregoing will be determined on a case-by-case basis by the Chief.

The Union shall be responsible for working with the City to assure that all time spent on paid leave for Union business is properly and accurately reported and recorded.

ARTICLE 3

SENIORITY

3.1 DEFINITION

Seniority, as distinguished from longevity and Seniority in Grade as defined in this Agreement, is defined as length of service as an Employee of the Fire Department. An Employee's seniority date is defined as the date of his original appointment. Seniority shall continue to accumulate during all authorized and paid leaves of absence. However, seniority shall not accumulate during unauthorized unpaid leaves of absence or subsequent to termination. Seniority shall be deemed lost when, for a period of greater than one (1) year (365 days), an Employee has quit, taken an unauthorized leave of absence, or been terminated for cause.

Longevity, as used in this agreement, is defined as the length of continuous service as an Employee of the City of Rockford. Longevity includes all periods of employment with the Fire Department as determined under seniority plus the total period of continuous employment with the City of Rockford prior to employment with the Fire Department. Longevity is used in this agreement for calculations of vacation accrual and determination of longevity wage increases. Any former employee of the City of Rockford who was not an employee at the time of original appointment to the Fire Department will not receive credit toward longevity for any period of employment with the Fire Department.

Seniority in Grade, as used in this agreement, is defined as the length of service as an employee in a particular pay classification. Seniority in Grade is used in this agreement to determine applicability of pay step increases. Seniority in Grade will continue to accrue during all periods in which the employee continues to serve in the payroll classification and during which seniority accrues.

3.2 EMPLOYEE'S LIST

On the first day of each January, a complete seniority list shall be compiled of all Employees in accordance with length of service as an Employee of the Fire Department as determined by the records of the Board of Fire and Police Commissioners. Said list shall be posted at each fire station and a copy furnished to the Union. The list shall stand approved unless objections thereto are received by the Chief within fourteen (14) days after said list has been posted.

3.3 SENIORITY RIGHTS

Seniority shall be used whenever an Employee may exercise length of service as an Employee of the Fire Department in the selection of vacation periods. With regard to Employees having the same seniority date, relative seniority shall be determined according to the entrance test score as

recorded in the records of the Fire and Police Commission with the Employee having the higher score being deemed more senior.

ARTICLE 4

WORKING CONDITIONS

4.1 COMPANY STRENGTH

In accordance with the total complement authorized by the City Council, the number of stations to be manned, and the manpower available, the City will continue to distribute men and officers to achieve the highest efficiency of operations and the greatest protection, and in the interest of fire fighter safety.

Effective the first 24-hour shift after the issuance of Arbitrator Elliott Goldstein's interest arbitration award, this section shall mean that the current level of manpower will be no fewer than fifty-nine (59) personnel, working per shift (A, B, C), who are assigned to a maximum of fourteen (14) companies and seven (7) ambulances. The City may deploy QRVs as jump companies in accordance with the provisions of Arbitrator Nielsen's arbitration award dated May 13, 2013.

Plus two (2) airport personnel, so long as an Intergovernmental Agreement between the Airport Authority and the City of Rockford for fire services at the airport is in effect. The manning number will be increased by airport personnel pursuant to the provisions below.

The airport manning will be directly related to the index of fire protection required at the airport. An independent company will be implemented at the airport, (Officer, Driver and Firefighter) effective January 1, 2010 or when the fire protection index increases, whichever is sooner.

Effective January 1, 2008 an additional driver engineer per shift will be added to the airport firefighting company.

4.2 HOURS

For Employees scheduled fifty-one (51) hours per week, a duty day shall be defined as twenty-four consecutive hours, and the workday shall begin at 8:00 a.m. The schedule for all employees of this schedule shall be twenty-four (24) hours on duty, and forty-eight (48) hours off duty. Employees on this schedule shall be eligible for time off to create an average of fifty-one (51) hours of work per week in each calendar year. Such time off shall be earned at the rate of eleven (11) days in a full calendar year or approximately one duty day every 33.18 calendar days (approximately 2.17 hours per duty day scheduled), the employee is assigned to this shift. This time off is known as "kelly days". Employees will be allowed to select anticipated "kelly days" off in accordance with Section 8.2 of this Agreement. Overtime shall be calculated consistent with Section 4.5 of this Agreement.

Employees normally assigned to the average fifty-one (51) hour workweek will be considered to remain on this schedule during temporary assignments that do not extend beyond the regular forty (40) hour work week as defined in this section.

Employees assigned to an average fifty-one (51) hour per week schedule will be assigned to a twenty-seven (27) day work period which begins and ends at 8:00 p.m. on a scheduled duty day. The 27-day work periods for each shift are set forth in Appendix "A" page 1 of 2 and page 2 of 2. When an employee is transferred the length of the work period may be shorter or longer to ensure the period begins and ends on a scheduled duty day.

For employees scheduled to work forty (40) hours per week, the normal workday is 8:00 a.m. to 5:00 p.m., and the normal work week is Monday through Friday. With two (2) weeks' prior notice, an Employee's workday may be variable Monday through Friday, to provide coverage for specific duties that cannot be accomplished during his normal duty day. During Fire Prevention Week, the workweek is variable Monday through Saturday.

Flex time—Prevention and Training Bureau employees may submit a written proposal to the Chief for a revision in their working hours. This schedule must be feasible for the Department and not create overtime pay. Denials will not be subject to grievance procedures. This provision shall not be expanded to suppression personnel or telecommunicators.

4.2.A HOURS OF WORK FOR TELECOMMUNICATOR (FIRE)

A. Work Day/Work Week

1. For Telecommunicator(s)-Fire, the established workweek shall begin and end according to the following shift assignments:

A & C (days) – 12:01 PM Saturday through 12:00 PM (Noon) the following Saturday

B & D (nights) – 12:01 AM Sunday through 12:00 AM (Midnight) the following Sunday

2. The workweek shall consist of an average forty-two (42) hour workweek. The above shifts shall be permanently assigned shifts according to the provisions of this agreement. Telecommunicators (Fire) workdays shall be divided into two (2) shifts. Day shifts shall be 6:00 a.m. to 6:00 p.m. Night shifts shall be 6:00 p.m. to 6:00 a.m. Telecommunicators (Fire) assigned to night shift shall be subject to shift differential as outlined in article 11.7. Telecommunicators (Fire) will not be forced to work more than twelve (12) hours in a workday and no more than six (6) hours at any specific work station.

B. Shift Assignment

1. Shift assignments shall be made through a process of selection bidding to begin and be completed on a single workweek designated by management during the last full week of October in order of seniority in grade. Management shall also post an updated list displaying seniority in grade and a list of the number of available positions for each shift at least one week prior to the designated day. Shift Assignments will begin with the first day of the first full payroll period in January and shall end on the last day of the last payroll period that begins in the following December month. The period for vacation selection shall correspond with the shift assignment period.
2. Employees shall be eligible to designate their shift preference by selecting an available shift slot. The selection of a shift shall be determined by seniority in grade in accordance with Article 3.1. Shift preferences shall be chosen and completed by individual employees on a single master schedule.
3. The Telecommunicator-Fire having the most seniority in grade on each selected shift shall be guaranteed their selection. Of the remaining Telecommunicator(s) – Fire on a given shift as selected, no more than one may be exchanged by the Chief or his designee with another Telecommunicator-Fire on a shift. Such an exchange is limited by a Day for a Day Shift, or a Night for a Night Shift. Probationary employees whose anniversary date is after December 31 of the current year shall not be eligible for selecting a shift preference. Non-eligible probationary employees will be assigned to specific shifts by management discretion.
4. Telecommunicator(s) – Fire who cannot attend on the designated selection week, may make their specific preference known in writing and must submit such preference to the 911 Center Manager no later than 6:00 PM on the day preceding the designated selection week. Employees unavailable for selecting shifts may designate an employee to serve as proxy by providing written notice to their supervisor at least 24 hours prior to the designated day. Any Telecommunicator-Fire failing to make a selection on this week shall be assigned by management discretion.
5. Whenever there is an initial opening on any shift, due to termination, resignation, or additional personnel passing probation, the shift opening shall be offered to existing personnel, in order of seniority in grade, with management approval. Any subsequent vacancy following the initial opening shall be barred from existing personnel, unless management chooses to open up to existing staff.
6. If, during the course of the year for which shifts are assigned, the Chief or his designee find it necessary for the proper functioning of the communications center to transfer an employee for reasonable cause (such as a disciplinary problem or legal issue), the employee will be switched with the least senior member of the same shift (i.e. day shift for day shift or night shift for night shift), unless there is a mutual

agreement to transfer with another employee that is approved by the Chief or his designee.

C. Consecutive Hours

The hours of work in a workday shall be consecutive. If a workday extends beyond 12:00 midnight, the hours worked continuously thereafter shall be considered as a part of the workday on which the shift began.

4.3 TRANSFERS

Transfers will continue to be made to improve the efficiency of the Department's operations.

4.3.A TELECOMMUNICATOR (FIRE) TEMPORARY TRANSFERS

Work assignments within a particular division shall be made first to Telecommunicators (Fire) who are in the same division in that classification. Documented temporary transfer of Telecommunicators (Fire) outside of their classifications shall be permitted for the following reasons:

- 1) To replace absent Telecommunicators (Fire) who are in the classification;
- 2) To supplement the number of Telecommunicators (Fire) who are in the classification; or
- 3) To train Telecommunicators (Fire).

Temporary transfer between departments/divisions or assignments of work in another classification will be permitted when required by weather or emergency conditions, except that Clerical Employees shall not be assigned outside work.

Temporary transfer may not exceed thirty (30) days except where the transferee replaces another Telecommunicator (Fire) absent due to leave of absence, vacation, illness, disability (of a duration of up to six (6) months), or other unusual circumstances designated by the Department Head or his/her designee.

Telecommunicators (Fire), upon request, will be provided written documentation of out-of-class opportunity.

4.3 B JOB/SHIFT ASSIGNMENTS

A. Transfers

All Officers and Driver Engineers with one (1) year or greater of time in grade may bid their station and apparatus assignments provided they are properly certified for specialty companies. (e.g., Extrication and Hazardous

Materials or equivalent Office of the State Fire Marshal certifications). Positions shall be bid and filled on a seniority in grade basis. Apparatus assignments for Officers and Driver Engineers shall be selected on a yearly basis, take place by September 1st, and take effect January 1st each year. Captains will make their selection first. After the Department announces the assignment of Captains, Lieutenants will make their selection using a process outlined by the department prior to commencing the bidding process. After the Department announces the assignment of Lieutenants, Driver Engineers will make their selection using a process outlined by the department prior to commencing the bidding process. The Fire Chief shall have the authority to assign employees to a specific shift.

Aside from the exceptions below, positions will be bid and filled strictly on seniority in grade basis. The Union and City agree that from time to time modification of station and apparatus assignments may be required to maintain the effective management of departmental operations. Personnel reassignments may be requested by the employee or made by the Fire Chief for the following reasons:

- Training/experience needs of the officer
- Personality conflicts
- Disciplinary
- Shift staffing needs
- Employee requests for personal reasons

Employee requests for reassignment shall not be arbitrarily denied. In the event it becomes necessary to transfer an Officer or Driver Engineer, due to reasons listed above, the member being transferred will be switched with the least senior employee of the same rank and shift, unless there is a mutually agreed to transfer with another bargaining unit member of the same rank on any shift. The Fire Chief's decision regarding employee reassignment for the reasons listed above will not be subject to the grievance process. All efforts will be made to accommodate the needs of the individual in case of emergency transfers.

The Fire Chief or his designee will have the final decision on all other transfers.

4.4 SHIFT EXCHANGE

The City agrees to allow the practice of shift exchange between Employees in the same classification in the same Company or throughout the City, provided that, except in cases of personal emergency, one (1) workday's notice shall be given to the District Chief(s) whose staffing will be affected by the exchange. However, such shift exchange shall not result in any overtime accrual by either Employee.

For shift exchanges, an Officer shall be allowed to exchange shifts with a Driver, provided the Citywide manning has positions able to meet the job

classifications of both the Driver and Officer in acting roles or through reassignments. In the event multiple “out of class” trades are requested for a day where assignments do not have positions to accommodate the job classifications, out of class trades will be honored in the order they were printed and signed using the print date on form #142 (Time Trade – request for).

For shift exchanges, a Driver shall be allowed to exchange shifts with a Second Driver or Firefighter, provided the Citywide manning has positions able to meet the job classifications of both the Driver and Firefighter in acting roles or through reassignments. In the event multiple “out of class” trades are requested for a day where assignments do not have positions to accommodate the job classifications, out of class trades will be honored in the order they were printed and signed using the print date on form #142 (Time Trade – request for). A Firefighter shall be allowed to exchange shifts with a Firefighter

Further provided that time trades will not be permitted if the position cannot be fulfilled by the employee with whom the trade will be made. In cases where a request for a time trade is denied, the specific reason for the denial shall be set forth in writing immediately. The denial of time trades will be made with one shift day’s notice.

4.4.A TELECOMMUNICATOR (FIRE) SHIFT TRADES

Telecommunicators (Fire) shall be allowed to trade shifts with other Telecommunicators (Fire) to gain specific days/hours off; with supervisory approval provided no overtime shall accrue to either employee. Shift/time trades shall be governed by the following guidelines:

- 1) Telecommunicators (Fire) on probation are prohibited from shift/time trades without the prior written approval of the 911 Director.
- 2) Any Telecommunicator (Fire) fulfilling any shift/time trades will not be allowed to use any vacation time, personal time, or holiday time to satisfy the shift/time trade commitment.
- 3) Once a time trade has been established, Telecommunicators (Fire) shall not be allowed to trade within the trade.
- 4) Telecommunicators (Fire) shall not be allowed to trade more than two consecutive weeks within a 28-day period without the prior written approval of the 911 Director.

- 5) Telecommunicators (Fire) engaging in shift/time trades are responsible for the coverage of their on-call commitments.
- 6) Telecommunicators (Fire) who use 24 hours of sick time within a six (6) month period to satisfy a shift/time trade commitment will be prohibited from shift/time trades for the following six (6) month period.
- 7) Shift/Time Trade procedures may be reviewed and/or modified by mutual agreement of the management and the union on a bi-annual basis.

4.4.B JOB/SHIFT ASSIGNMENTS FOR TELECOMMUNICATOR (FIRE)

Individual qualifications based on job performance to do the tasks required shall be considered first when making job/shift assignments. For the purposes of job/shift assignment, where the ability and qualifications to perform work are relatively equal, seniority as listed below shall be considered in the following order:

1. Seniority in grade
2. Employee Preference

4.5 OVERTIME

Overtime, which includes holdover situations shall be defined as all time worked, which is required by the employee's commanding officer or district chief, in excess of the following:

- a. For employees working a forty (40) hour schedule, any hours over eight (8) in any one duty day, and over forty (40) hours in any duty week, as set forth in Section 4.2 of this Agreement.
- b. For employees working an irregular forty (40) hour schedule, any hours over twelve (12) hours in any duty day, and over two hundred (200) hours in any five (5) week period, as set forth in Section 4.2 of this Agreement.
- c. For employees working an average fifty-one (51) hour schedule, any hours over twenty-four (24) consecutive hours.
- d. For employees working an average fifty-one (51) hour per week schedule, any regular duty hours worked in excess of two hundred four (204) hours in any twenty-seven (27) day work period as set forth in Section 4.2 of this Agreement. For purposes of this section, regular duty hours worked are hours on the employee's regular duty day which are actually worked by the employee or are covered by

another employee by an approved shift exchange as defined in Section 4.4 of the Agreement.

Overtime pay shall be defined as one and one-half (1-1/2) times an Employee's straight time hourly rate of pay, which shall be computed on the basis of a forty (40) hour week for Employees working the forty (40) hour schedule, and a fifty-one (51) hour week for Employees working the fifty-one (51) hour schedule. Employees in holdover situations shall receive overtime pay for the entire holdover period.

Overtime incurred by Employees who are called back to work outside of their regularly scheduled working hours due to fire, illness, or emergency, shall be compensated at overtime rate for the greater of either two (2) hours or the actual time worked. For forty-hour employees the minimum rate will be three (3) hours or the actual time worked. For purposes of computing time under this section, compensable time shall commence when the Employee reports for duty.

In the event that an emergency situation should occur due to fire or any of the above-mentioned contingencies, the Chief or his designee may prescribe overtime work or may call back off-duty personnel to meet additional needs of the Department. To insure uniform opportunity for call back work, the Chief shall establish a uniform method for calling back Employees, and make such system, known to the Employees by April 1, 1986. All overtime hours will be charged to the Hiring Priority List (i.e. Special Events, dive practice and calls, EMS, teaching, Hart, etc.).

For Employees of the regular forty (40) hour schedule, compensatory time may be taken instead of overtime pay. Such compensatory time will be equivalent to one and one-half (1-1/2) hours for each hour in excess of the schedule set forth in Section 4.2 of this Agreement. The Employee may accumulate, at his option, up to eighty (80) hours of compensatory time. On November 1 of each year, the Employee must cash out, or take off, all time in excess of sixty (60) hours. The Employee's Division Chief will allow compensatory time to be taken with prior notification by the Employee provided manpower levels allow.

4.6 OVERTIME OPPORTUNITIES AND PAY FOR TELECOMMUNICATORS (FIRE)

A) Definition

Any Telecommunicator (Fire) who is required to perform work in excess of forty (40) hours per week, shall be compensated at the rate of time and one half his/her regular base hourly rate. Overtime shall not be compounded nor paid on overtime. For purposes of overtime computation, vacation time, holidays, sick time, jury duty and bereavement leave shall be considered as time worked.

B) Overtime Calculations

All calculations of overtime, whether paid or compensatory time, time worked prior to or immediately following the Employee's regular shift, shall be computed in no less than fifteen (15) minute increments. The excess of any overtime work which cannot be divided by fifteen (15) minutes shall be rounded to the nearest fifteen (15) minutes, for the purposes of overtime calculations.

C) Assignment of Overtime for Telecommunicators (Fire)

- 1) Advance overtime slots will be posted in a common area for employee review. All available slots will have a due date for employees to sign up.
- 2) Telecommunicators (Fire) shall have signup sheets available for their use. Sheets will be due on Tuesdays at 0800, which would be twelve (12) days prior to the first overtime day that needed to be filled. This will leave adequate time for notification of assignments, as well as time for unfilled slots to be assigned. Telecommunicators (Fire) are to fill in their name and status along with their overtime selections.
- 3) Sheets not turned in by the due date will be considered as a "Pass" on the opportunities for that week.
- 4) Any regular full time Telecommunicator (Fire) who does not receive any overtime in a given week will be placed ahead of those with more seniority in the following week for the purpose of equalizing overtime. This equalization will only occur if this person volunteered to work at least twelve (12) hours of overtime in the week that they did not receive an assignment.
- 5) Unless indicated otherwise on the sign-up sheet, the Telecommunicator (Fire) will be expected to work every slot they volunteer for. For example, if the employee selects three (3) twelve-hour (12) slots, yet does not indicate that they only want one (1) of the slots, they will be expected to work all three (3) slots if assigned. Any and all conditions and/or preferences must be recorded on the form to be considered.
- 6) Telecommunicators (Fire) who have signed up for overtime work shall be required to perform such work, however, upon presentation of an excuse acceptable to management, such employee may be relieved of the assignment. A Telecommunicator (Fire) may call in sick (and thereby miss an overtime assignment) for a maximum of twelve (12) hours during a twelve (12) week period. After this, any

Telecommunicator (Fire) missing an overtime assignment for any reason shall be removed from the voluntary overtime sheet distribution list for a twelve (12) week period. This removal will not prevent the employee from filling any "overtime still needed" slots however, which are distributed after the voluntary program has been applied to that week's openings.

- 7) After the weekly sign-up sheets for a given week have collected, distribution of overtime will proceed as follows:
 - a) Regular full time employee sheets will be placed in seniority order. Sheets will be processed sequentially assigning six (6) or twelve (12) hour selections until no more are available. Starting again with the most senior person sheets will be processed assigning six (6) hour selections until no more are available.
 - b) Probationary employee sheets will then be processed in the same manner as regular sheets.
 - c) Any unfilled time slots will be listed on an "additional overtime available" sheet on which regular full time Telecommunicators (Fire) and probationary Telecommunicators (Fire) may sign up for additional overtime. These sheets will be processed as indicated in (a) and (b) above.
 - d) Part time employee's sign-up sheets will then be processed to fill any possible time slots.
 - e) Any unfilled times after Steps a-d will be filled by assigning Telecommunicators (Fire) as necessary to maintain a complete work shift.
 - f) A master schedule will be compiled and posted on the bulletin boards and supervisors' console. This will serve as notification of overtime assignments.

D) General Rules

- 1) All time worked on a continuous shift will be considered as having been worked on the day the shift begins.
- 2) Hours worked at overtime or at premium will not be duplicated or pyramided in computing pay earned.

- 3) Stand-by hours are not counted in computing overtime.
- 4) Telecommunicators (Fire) who are:
 - a) Called in to perform job duties prior to the start of their regularly scheduled shift; and
 - b) The actual work time continues into their regular work shift; will be allowed to complete their normal shift.

4.7 COURT APPEARANCE

Employees ordered or subpoenaed to give testimony on behalf of the City in matters arising out of their employment will receive credit for a minimum of two (2) hours or the actual time involved for each non-duty day appearance rounded off to the nearest fifteen (15) minutes. For the purpose of computing time under this Article, compensable time will commence at the hour he is ordered to appear in court. If the appearance is cancelled less than twenty-four (24) hours prior to the scheduled appearance on the non-duty day, the employee shall receive the minimum two (2) hours of pay.

4.8 SAFETY, HEALTH AND CLOTHING

The City and the Union agree that protecting the safety and health of the Employees in their work demands the highest concern of the Fire Department. In order to promote this concern among all Employees, as individuals and as members of companies, the City and Fire Department urge every Employee to suggest methods of improving safety and health in working and living conditions of employment. Captains and Lieutenants are empowered to accept all such suggestions and to implement them to the extent possible within their own jurisdictions. The City agrees the Union shall appoint a Safety, Health and Clothing Committee, consisting of three (3) persons in the unit. The City shall appoint up to three (3) persons to serve on this Safety, Health and Clothing Committee. This Committee shall discuss and recommend minimum acceptable standards for all clothing, personal protective gear, or safety devices worn or used by firefighters during duty hours. It is not the intention of either party to reduce current minimum safety standards. The Chief or his designee shall take under consideration all recommendations of the Committee and will establish all minimum standards in these areas. These minimum standards shall apply to: station clothing, turnout pants and coats, boots, helmets, gloves, air masks, goggles, and other personal protection items deemed by the City to be worn by the Union members while on duty.

The Committee will make recommendations on any possible hazards to a safe and healthy job assignment or workplace that is brought to its attention. The Committee will review any accidents or injuries in the Department to better determine the reasons why the problem occurred

and to provide any recommendations to prevent a similar event from occurring in the future. Names of employees will be redacted from such reports, and the members of the Committee will follow applicable HIPAA rules and regulations to preserve the privacy of such employees. The Committee will also review the types, condition, use and availability of apparatus, equipment and protective clothing with the goal of improving safety and operations within the Department; provided, however, that neither the Union nor any bargaining unit employee shall have the right to file a grievance respecting the type, condition, use and availability of apparatus or equipment used or purchased by the employer. The Committee will make periodic inspections of Fire Department facilities, apparatus, protective equipment, protective clothing, and other equipment on a semi-annual basis.

The Department and IAFF Local 413 will agree to create a form together for the reporting of safety concerns or unsafe practices. In such instances, the Committee will provide written information on the form to the Chief detailing any safety concerns or unsafe practices.

4.9 COMMON MEAL SITE

For the convenience of the City all 24-hour Employees and alarm operators shall not leave their appointed stations during their tour of duty for meals.

4.10 PARAMEDIC DECERTIFICATION

All firefighters shall agree, at the time of hire, to become paramedics. If a firefighter is not asked to attend paramedic training during the first five (5) years of employment, the firefighter may be excused from paramedic obligation. The Department will strive to maintain enough trained paramedics to staff each ambulance with four (4) paramedics per shift, for a total of twelve (12) paramedics per company. Ambulances will be manned by firefighters cross-trained as paramedics, and each person will work twelve (12) hours per shift as a firefighter and twelve (12) hours per shift as a paramedic, this does not preclude a person from working twenty-four (24) hours as paramedic if required.

The Department will allow paramedics to downgrade. Each paramedic shall be required to relicense once after their initial licensure. Anytime after six years of licensure, the paramedic shall notify the Department of his intent to relicense or downgrade by filling out a form provided by the Department. Downgrading shall depend on the number of paramedics that will be left in the service. The minimum number of paramedics per ambulance company shall be twelve (12) firefighter/paramedics below the rank of driver/engineer. Any paramedic who downgrades shall be required to maintain license at the EMT-B level.

Any paramedic promoted or assigned to a higher position will not be required to maintain his/her paramedic licensure.

4.10.A ADVANCED LIFE SUPPORT – FIRE APPARATUS

The City and the Union agree to provide Advance Life Support (ALS) service on all fire equipment/apparatus to the extent trained manpower allows. To qualify as an ALS provider, the individual must be licensed either as an EMT-I or EMT-P in the State of Illinois and approved by the Emergency Medical Director in a system that is utilized by the Department. If a new recruit is an EMT-I or EMT-P as described above, he shall be evaluated, and approved if competent, to perform ALS services by the Chief or his designee within one hundred and eighty (180) calendar days after being assigned to a Fire Company. If the Chief or his designee have failed to evaluate the employee within this time period, he will receive that ALS Provider Pay effective the one hundred eighty-first (181st) day. The City and the Union agree to discuss throughout the life of this contract issues that impact this service delivery and the ALS providers.

4.11 PHYSICAL FITNESS COMMITTEE

Recognizing that the physical fitness of a firefighter is critical to his/her own health and safety, as well as that of his/her fellow firefighters and to the citizens they serve, the City and the Union shall cooperate in efforts to maintain the physical fitness of all employees covered by the terms of this Agreement.

The City and Local 413 agree to establish a joint ad hoc committee to study and make recommendations for a department physical fitness program. The focus of the committee will be to recommend a plan for promoting individual fitness and a healthy lifestyle for each employee. Elements to be addressed specifically in the plan shall be medical, fitness, medical/fitness/injury rehabilitation, behavioral health, mental health, and data collection and reporting.

The committee shall consist of three (3) representatives from the City and three (3) representatives from Local 413. Additionally, the committee may include a certified trainer(s), occupational nurse(s), or physician(s). The final recommendations from the committee shall be submitted to the Fire Chief and the Union President for review.

The recommendation of the committee shall be subject to review and acceptance by both the City and the Union prior to implementation. In the event, that there is a disagreement following such a review, the City and Union shall enter into negotiations and resolve all differences. The programs implemented as a part of this Agreement shall become part of the Collective Bargaining Agreement. The Union will encourage its members to fully participate in the program and make a good faith effort to comply with the guidelines of the program.

The employee will be asked to bring a statement from the doctor if the time away from work exceeds two (2) hours.

4.14 CALL-IN PAY FOR TELECOMMUNICATORS (FIRE)

An Employee called in to work at any time after or before his/her regularly scheduled work hours, shall receive no less than two and one-half (2 1/2) hours pay, at the rate of time and one-half his/her regular base hourly rate. This call-in provision shall not apply if hours worked in addition to the regularly scheduled hours are worked as an extension of the Employee's regularly scheduled hours, subsequent to the Employee's regularly scheduled hours of work. If an Employee is called in under the provisions of this Section and works at least two and one-half (2 1/2) hours, he/she shall be entitled to at least thirty (30) minutes travel time, at the applicable overtime rate, in addition to the two and one-half (2 1/2) hours minimum guarantee. If an Employee is called in to work under the provisions of this Section and works less than two and one-half (2 1/2) hours, he/she will be guaranteed at least two and one-half (2 1/2) hours pay, but will not receive the thirty (30) minutes travel time guarantee.

4.15 STAND-BY PAY FOR TELECOMMUNICATORS (FIRE)

Telecommunicators (Fire) will be assigned, by seniority, a full stand-by shift as manpower needs require. Telecommunicators (Fire) required to cover an on call shift shall receive two (2) hours stand by pay. Telecommunicators (Fire) will be provided with a portable communications device. Employees on stand-by must report to work within one (1) hour of receiving notification. Employees on stand-by who do not report to work within one (1) hour of receiving notification may be subject to discipline. Extenuating circumstances will be taken into account when considering

discipline. Stand-by pay shall be allowed to be converted to compensatory time and shall be subject to the conditions stated within this article as well as 4.16. If there is one hundred twenty (120) hours or less notice that a Telecommunicator (fire) is sick or absent for their scheduled shift and there are no volunteers to fill the vacancy slots for the two (2) Fire positions, the on call person shall be used to fill the vacancy.

When there are three(3) Telecommunicators (Fire) scheduled for work on the same shift, that shift shall be allowed to not have a Telecommunicator (Fire) assigned to be on-call, if that scheduled Telecommunicator (Fire) requests to be released from the assignment. Such a request must be initiated no more than thirty (30) calendar days prior to the scheduled assignment and not less than five(5) calendar days prior to the assignment. Management shall post on-call assignments no later than ten (10) calendar days preceding the beginning of the next calendar month.

After which an employee is released from the on-call assignment and there are three (3) Telecommunicators (Fire) scheduled (including time trades but not hire backs), one additional employee may request vacation subject to the following conditions:

- That employee is responsible to find another employee to cover the vacant on-call slot for that shift.
- If the employee is unable to find another employee to cover the vacant on-call shift, the employee requesting time off can choose to serve in on-call status and be off from their schedule assignment. If that employee is called in to work the shift, the time off request is cancelled and the employee works the shift as a normal workday and will report to work immediately. Hours applied towards time off and time worked will be appropriately adjusted to the nearest hour.

Vacation leave shall be accrued on the basis of continuous service including periods of paid leave of absence.

8.2 VACATION SELECTION

The City shall, by November 1 of each year, have a new vacation selection schedule in all stations. Seniority shall rule in the selection of all vacation periods. Each person shall be allowed one (1) full duty day to make his choice of a vacation period. This procedure shall be followed until all vacation and holiday time has been selected by all members of the company or vacation group. For the first selection only, a maximum of seven (7) consecutive duty days may be selected. When vacation and holiday selections have been completed, the same procedure shall be used in the selection of Kelly time with no Employee selecting more than two (2) consecutive duty days at a time. No vacation, holiday or Kelly time shall be allowed to be selected for any day already designated by another Employee within the same vacation group, except in the situation where a company or vacation group does not have enough days in the year to choose from. In the event that there are not enough days in the year to be selected by persons in a vacation selection group, the City will establish one (1) or more additional vacation selection group(s) to enable the selection of remaining days, provided that no more than one (1) person in any group selects the same day. These additional vacation selection groups shall be referred to as "overflow groups". This means that any employee with days not selected within their initial vacation selection group will be assigned to an overflow group to select the remaining days. Days opened in this manner will not be available to any other employees not assigned to that overflow group.

If an Employee does not select his vacation time within the time allowed, provided he was able to select, he will be passed over by the Employees following him on the seniority list. All selections shall be made by January 1, and the list returned to the Chief by that date.

For fifty-one (51) hour personnel a minimum of fourteen (14) vacation groups

will be specified with a maximum of six (6) persons per initial group. Recruit firefighters will select from open days in the first available overflow vacation group. If no overflow groups are available, or there are not enough days in the year to be selected within the existing overflow groups, the City will establish one (1) or more additional overflow group(s) to enable the selection of remaining days, provided that no more than one (1) person in any group selects the same day. Vacations may be postponed by the Chief in the event of an emergency. Employees will be allowed to change their vacation or Kelly selections within their vacation selection groups, provided a minimum of one (1) duty days' notice shall be given to the District Chief whose shift will be affected, and no more than one (1) person is on vacation or Kelly day within a vacation group. If kelly day(s) are traded and the individual uses other optional leave (sick/FMLA) on that day for an event known in advance, a penalty will be assessed. Employees must take vacation, holiday, or Kelly time in a minimum of ten (10) work periods (twenty-seven (27) days as defined in Section 4.2 of this Agreement) during the calendar year. The vacation schedule shall not be turned in until the company officer verifies that time has been selected in such periods by all members of the company or vacation group. Changing of selected days as allowed above shall not be permitted if the change would violate this provision.

Employees who are transferred during the year shall be guaranteed all of their original vacation and holiday picks

For the Employee who remains on the same shift:

- The Employee will remain in the vacation group he/she was in prior to the transfer.
- The Employee shall keep their remaining Kelly days.

- The Employee will re-pick either one (1) day before or one (1) day after the day of the original vacation/holiday pick.

Anyone subsequently transferred to the shift will pick their remaining Kelly days from the same group. Additional overflow groups will be added, as needed. Personnel re-picking Kelly days will be excluded from picking July 4th, December 24th, and December 25th. Only individuals transferred mid-year will be placed into Transfer Overflow Groups.

If an Employee loses vacation selections because of the provisions of Section 9.3.c. of this Agreement, he may re-select his remaining vacation days from the days remaining in the calendar year, provided no one else in his company has already selected those days. When re-selecting vacation days, the following provisions shall apply:

- a. When there remains in the year a number of consecutive days equal to or greater than the number of consecutive days lost by the Employee, the Employee may take his remaining days before the end of the calendar year;
- b. When a number of consecutive days available for selection is not equal to or greater than the number of consecutive days lost by the Employee, he may choose to take any days remaining in the calendar year, or choose to be paid at his normal rate of pay, or may choose to re-select the remaining vacation days from open days in any single preexisting overflow vacation group.
- c. The Employee may convert their unused vacation selections to sick leave hours with one (1) vacation hour equaling one (1) hour of sick leave.

The selection process will continue until all time has been selected or everyone has passed. Any subsequent requests for vacation must be submitted at least thirty (30) days in advance. Requests will not be denied solely on the basis of a 30-day notice. Vacation is determined by seniority, one (1) selection at a time, and no bumping will be allowed. Holiday time is considered the same as vacation time except it cannot be carried over from one year to the next. When holiday time is chosen, it will be designated "holiday time".

Vacations and holidays may be selected from January 1 through December 31 of each year; however, no vacation or holiday time shall be allowed to be selected for any period of time already designated by one (1) Telecommunicators (Fire) on the same shift. The employee may instead continue to use sick leave to cover said absences subject to the provisions of Section 9. Said leave shall not be unpaid, unless the same is a Family Medical Leave Act (FMLA) event. Should said leave be an FMLA qualifying event then paid leave shall be exhausted before the employee may request unpaid leave. TESTING FOR CONTROLLED SUBSTANCES

Policy Statement

The Union and the Employer agree that the use of illegal drugs, and the abuse of legal drugs by members of the Fire Department present unacceptable risks to the safety and well-being of other employees and the public, invites accidents and injuries, and reduces productivity. In addition, such conduct violates current Departmental regulations and the reasonable expectations of the public that the employees who serve and protect them obey the law and be fit and free from the adverse effects of drug abuse.

In the interest of employing persons who are not impaired by drug abuse in the performance of their jobs, and for the safety and well-being of employees and residents, the Employer will establish a program that will allow the Employer to take the necessary steps, including drug testing, to eliminate such abuse by Fire Department employees.

"Drug(s)" shall mean any controlled substance listed in the Illinois Compiled Statutes, Chapter 720, Act 570, known as the Controlled Substances Act, for which the person tested does not submit a valid prescription. If the initial test is positive, but the confirming test is negative, the test results will be deemed negative and no action will be taken. A positive confirming test result is one where the specimen tested contained drug or drug metabolite concentrations at or above the concentration level specified in the Section outlining Drug Testing Standards below.
- D. The term "drug abuse" includes the use of any controlled substance which has not been legally prescribed and/or dispensed, or the

abuse of a legally prescribed drug for which a valid, prescription cannot be documented, which results in evidence of impairment while on duty.

- E. The term “employee,” for the purposes of this article only and not for any other collective bargaining language purpose, shall include all sworn Fire Department personnel, Telecommunicators-Fire, Telecommunicator supervisors, Fire Equipment Specialist, and Fire Shop Coordinator.
- F. The Fire Chief or designee, or the Director of Human Resources or designees (these people shall be trained to determine the factors or symptoms needed for the reasonable suspicion test), shall determine if reasonable suspicion exists.

4. After the drawing the Chief or his designee shall order the selected group to report to the testing site as promptly as practical.
5. The employees in the selected group shall provide specimens of urine sufficient to allow for "split sample" collection and processing of the specimens.

11. Provide each employee tested, upon written request, with a copy of all written information and written reports received by the Employer in connection with the testing and the results;

AGREEMENT MEMORANDUM

CORRECTED

COPY: 6/7/90

On February 22, 1988, the following Agreement was reached between AFSCME Local 1058 and the Rockford Police Department management. This was the culmination of a grievance hearing, and pertains only to Com-Center Personnel.

Two times per year, each employee may request TC and/or personal day(s) in conjunction with a vacation pick and management will not turn this request down based solely on the necessity to hire overtime to fill the slot. However, if the TC or personal day picked falls on a holiday, forced overtime will be a valid reason for rejecting the request, as it would be unduly disruptive to operations. Employees will be allowed a maximum of five (5) days before and five (5) days after a scheduled vacation once; and, Employees will be allowed to take a maximum of three (3) days before and three (3) days after a scheduled vacation once.
