

# Business First

## Personalized Meetings Providing Information To Start Or Expand Your Business

Business First is a comprehensive meeting where business owners can meet with several regulatory partners in one setting and receive the information they need to start or expand their business. Once a business owner has developed their concept and identified a location, they are encouraged to attend a Business First meeting to ensure everything is in place to fulfill Rockford's operating requirements. At this 30-minute meeting, entrepreneurs can ask questions and receive personalized feedback beneficial to their success.

The Business First team meets at Rockford City Hall (425 E. State St).
