

Realtime Electronic Payments

The Vendor Enablement Experience

REPAY's dedicated vendor enablement team delivers a smooth transition from manual paper check payments to digital and automated payments. Digitizing the invoice payment experience ensures:

More on-time payments

Consistent cash flow

Simplified reporting

Over 225,000 vendors regularly trust REPAY to manage their ongoing payments. We use this experience to streamline the enablement process to be as disruption-free as possible.

Realtime Electronic Payments

• So, what can you expect? A REPAY vendor enablement specialist will:

- Contact you and identify themselves as calling on behalf of the client.
 - Note: any email correspondence will come from a REPAY email domain.
- Collect your payment data and securely store it within the REPAY vault for use.
 - We encrypt and tokenize your data, so the actual payment information is never shared.
- Manage any future payment information changes.

The setup takes only a few minutes, so you can start getting paid faster, sooner.
