***STREET DIVISION MAINTENANCE UPDATE***

**STREET SWEEPING:**

**Supervisor: Harry Noble**

**779 348-7619**

Spring residential street sweeping began on April 10, 2017 and was completed on June 14, 2017.

Arterial and Central Business District sweeping cycles will continue throughout the summer months through Mid-September. The fall residential sweeping cycle will commence Mid-September, 2017.

All Street Division Operations are dependent on existing weather conditions and are subject to change accordingly. Citizens are urged to approach Public Works Crews with caution and at a reduced speed that is below posted speed limits.

The City of Rockford appreciates your continued patience and cooperation as we perform our Street Maintenance Activities.

### **Harrison Avenue Reconstruction Project** **(Harrison Avenue between 9<sup>th</sup> Street and East of 22<sup>nd</sup> Street)** **(11<sup>th</sup> Street between Wills Avenue and South of 23<sup>rd</sup> Avenue)**

Road construction on Harrison Avenue between 9<sup>th</sup> Street and 20<sup>th</sup> Street continues for the 2017 season. Currently construction crews are concentrating on concrete paving along the south lanes of the road as work is now in Stage 2 of the Harrison Avenue project. Stage 2 includes box culvert extension, road widening, new pavement, curb and gutter, medians, sidewalk, sanitary sewer construction, storm sewer installation, water main replacement, new street lights, new traffic signals, and pavement markings. Stage 2 construction is scheduled to continue through the summer of 2017.

During Stage 2, the north lanes of Harrison Avenue will remain open to one lane of traffic each way at this time, with short, intermittent side street closures as the underground work moves through those intersections at various times during this stage.

Crews will be working on the completion of the 20<sup>th</sup> Street intersection and temporary ramp for the side streets on the south side of Harrison Avenue from the box culvert to the east end of the project. They will also be paving 11<sup>th</sup> Street on the west side. Concrete gaps are being formed and poured. Starting Thursday construction will start on the south half of the box culvert. Please follow all detours. Temporary lane closures may occur during these periods. Please expect delays.

All work is dependent on the proper weather conditions. Drivers should be aware of work zone speed limits and use caution when driving in these areas.

**Lane Closures of North Main Street (IL-2) – Illinois  
Department of Transportation Roadway Project (Yonge Street  
to just north of Riverside Boulevard)**

**During the week of August 14<sup>th</sup>, 2017, roadway paving operations will be underway south of the railroad tracks. Concrete curb and gutter placement will occur south of the railroad tracks as well as driveway placement. Landscaping and topsoil placement will be continued behind edge of pavement on the west and east side of N Main. Corridor street lighting will be placed along the project limits. Please be alert for construction activities when driving/biking/walking through these areas in the coming weeks.**

Southbound and northbound traffic will be two lane traffic for the duration of this work as paving operations will occur on the northbound lanes between Auburn Street and Pierce Avenue. In addition, many eastern legs of North Main intersections will be closed for the duration of traffic staging 2B. This work is anticipated to be completed by the end of October.

**Please note that businesses are open during construction.**

On March 22nd, 2017 construction began on the IDOT N Main project. The North Main Street Roadway Project consists of pavement removal, excavation, roadway re-alignment, PCC pavement, HMA pavement, curb and gutter, landscaped median, multi-use path and sidewalk construction, water main replacement, storm sewer installation, landscaping, street lighting, traffic signal modernization and interconnection, pavement markings, erosion control, maintenance of traffic and all other necessary items to complete the improvements.

The City of Rockford appreciates your continued patience and cooperation during this work.

**East State Street & Madison Street Traffic Signal Upgrade**

Construction to upgrade the traffic signals at the intersection of East State Street and Madison Street began on *Monday, July 24<sup>th</sup>* and is expected to proceed through to *Friday, September 1*. These improvements include replacing the old, outdated traffic signal equipment with decorative traffic signal mast arms, signal posts, pedestrian countdown timers and street lighting. The new overhead signals are expected to be more visible to the traveling public and increase the safety of the intersection.

During the entire duration of construction, the intersection will be placed under an ALL-WAY STOP traffic control condition. STOP signs will be placed at each leg of the intersection. Construction work shall commence early on Fridays to minimize delays for Friday afternoon and evening events. Motorists should expect delays during construction and are encouraged to bypass the area by using Jefferson Street and Walnut Street to arrive at their destination in a timelier manner.

## **City-Wide Street Repairs 2017 Group No. 2** **(Residential)**

Construction work began on the City-Wide Street Repairs 2017 Group No. 2 (Neighborhood) project. Full width resurfacing with curb and gutter, sidewalk, ADA ramps, driveway approaches, pavement striping and structure repairs as needed at the following locations:

23 <sup>rd</sup> Avenue	9 <sup>th</sup> Street	15 <sup>th</sup> Street

**WATER QUALITY CONTACTS:**

**Water Quality Group:**

**779.348.7151**

If discolored water occurs, it is not a health hazard. However, during any flushing procedures, iron (red water) and manganese (black water) may become stirred up within the water main, which can create staining on the porcelain and laundry. This work may result in the disturbance of sediment, possibly containing lead. It is advised that you flush your water lines for 1 – 2 minutes once work is completed in your area including removing and cleaning faucet aerator screens to remove sediment. For this reason it is vital that the public be aware of the time and area that will be affected. If there are any Water Quality questions, please contact water quality at the number listed.

For a detailed map of hydrant flushing locations and when staff will be working in specific neighborhoods, please visit the City's web site at:

<http://rockfordil.gov/public-works/water-division/hydrant-flushing>.
